

# Cyber security micro-exercise report

Connecting securely

Prepared by: \_\_\_\_\_

Date: \_\_\_\_ / \_\_\_\_ / \_\_\_\_

## Executive summary

Our team ran a discussion-based cybersecurity micro-exercise session on the reported date using the Australian Signals Directorate's Australian Cyber Security Centre (ASD's ACSC) Exercise in a Box. This report summarises the results of this exercise and includes recommendations for our organisation to consider.

## Discussion outcomes

What we learned from running the exercise:

How our understanding of preventing this type of cyber security threat changed:

What will we look to change or implement:

## Team statements

We rated our confidence against the following statements:

	Not at all confident	Slightly confident	Somewhat confident	Fairly confident	Completely confident
We are confident that users have access to guidance regarding how to connect securely to our organisation's resources.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Our organisation makes it easy to get the IT support we need if we are having issues connecting.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Our organisation ensures that our infrastructure that enables home and remote working is kept up-to-date and patched.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Users would feel confident reporting without repercussion if they believed they were victim of an 'Evil Twin' attack.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
