

# Cyber security micro-exercise report

## Securing video conferencing services

Prepared by: \_\_\_\_\_

Date: \_\_\_\_ / \_\_\_\_ / \_\_\_\_

## Executive summary

Our team ran a discussion-based cybersecurity micro-exercise session on the reported date using the Australian Signals Directorate's Australian Cyber Security Centre (ASD's ACSC) Exercise in a Box. This report summarises the results of this exercise and includes recommendations for our organisation to consider.

## Discussion outcomes

What we learned from running the exercise:

How our understanding of preventing this type of cyber security threat changed:

What will we look to change or implement:

## Team statements

We rated our confidence against the following statements:

	Not at all confident	Slightly confident	Somewhat confident	Fairly confident	Completely confident
We have organisational policies and guidance in place to support users with video conferencing.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
We can share meeting invites securely.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
We can create a waiting room or lobby for participants.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
We know how to verify and remove a participant from a video conference.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
