

Cyber security micro-exercise report

Using passwords

Prepared by: _____

Date: ____ / ____ / ____

Executive summary

Our team ran a discussion-based cybersecurity micro-exercise session on the reported date using the Australian Signals Directorate's Australian Cyber Security Centre (ASD's ACSC) Exercise in a Box. This report summarises the results of this exercise and includes recommendations for our organisation to consider.

Discussion outcomes

What we learned from running the exercise:

How our understanding of preventing this type of cyber security threat changed:

What will we look to change or implement:

Team statements

We rated our confidence against the following statements:

	Not at all confident	Slightly confident	Somewhat confident	Fairly confident	Completely confident
Our organisation makes it easy for users to store passwords securely e.g. use of password managers.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
We have regular training highlighting best practice for passwords, e.g. how to choose passwords that are difficult to guess.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Our organisation follows ACSC best password practices.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
We would know if our passwords had been compromised.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
We know who to contact if our email accounts have been compromised.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
